**OHIO TURNPIKE AND INFRASTRUCTURE COMMISSION
ADDENDUM NO. 3
PROJECT NO. 59-17-02**

QUESTIONS AND ANSWERS THROUGH 12:00 PM ON JANUARY 23, 2017

Q#15 Maintenance of Traffic Notes, plan sheet 8, states in the TEMPORARY TRAFFIC CONTROL (TIC) NOTES 3. “A quantity of item 614 – Work Zone Edge Line, Class I, 740.06, Type I has been added to the estimated quantities ...” Is this incorrect? As there is no bid item for 614 – Work Zone Edge Line, Class I, 740.06, Type I?

A#15 The Note on Plan Sheet 8 of 13 is revised through this Addendum No. 3 by deleting the reference to EDGE LINE and substituting CHANNELIZING LINE in its place. Revised Plan Sheet 8 of 13 is incorporated into the Contract Documents with this Addendum No. 3.

Q#16 Item SP641C - Removal of Pavement Marking 19.65 miles includes removal of work zone pavement markings, as per TEMPORARY TRAFFIC CONTROL (TIC) NOTES 2 on plan sheet 8, however, should that quantity be almost doubled if removal is required for conflicting markings (plan sheet 9) on the newly resurfaced pavement? Whereas, Maintenance of Traffic plan sheet 9 shows removal of existing yellow edge line (is this through the length of the project?) that will not be needed since the left lane and left shoulder will be closed for milling and resurfacing, correct?

A#16 Upon completion of Stage 2 Work, the Contractor will not remove the temporary lane line. The temporary lane line will be striped over with the final yellow edge line. The plan estimated quantity for Item SP641C - Removal of Pavement Marking accounts for removal of the existing yellow edge line from the shift locations to the start/end of Project work, the removal of the temporary yellow edge line, and the removal of the painted lane shift markings. The existing yellow edge line, within the project limits, will be removed during the normal pavement planing operations.

Q#17 Does only the low bidder need to turn in our financial statement and experience questionnaire within 24 hours of bid opening?

A#17 Under the bidding documents, all bidders are instructed to submit the financial statement and experience questionnaire within 24 hours of bid opening.

Q#18 Second, if we do need to supply our financial information, audited financial statement, can we make sure that it does not become a public document for all to see?

A#18 There is an exception to the public records law under RC 9.312 that the Commission considers applicable to these records, which provides that, “additional financial information it receives pursuant to a request under this division confidential, except under proper order of a court. The additional financial information is not a public record under section 149.43 of the Revised Code.”

Q#19 Do you have an updated Equity and Inclusion Certification list available? This is the list of your SBE's correct?

A#19 Please see the enclosed list of certified firms the Commission identified as available to perform Work on this Project.
