ANSWERS TO QUESTIONS RECEIVED THROUGH 12:00 P.M., NOVEMBER 7, 2013

Q#3 Under Construction Administration and Inspection – Phase II, is the selected team to provide the materials testing or will that contracted separately by the Commission?

A#3 The Commission will contract separately for material testing services.

Q#4 If we want to have a different project manager than listed in our previously submitted statement of qualifications because of specific project experience relating to this type of project, would it be acceptable to the Commission?

A#4 Yes. It is the Commission's expectation that Responding Firms will put forth their most qualified personnel for the Project. The responses to the Commission's Biennial Request for Qualifications are primarily used to assign small agreements for miscellaneous services, material testing services, and construction administration and inspection services, as well as for identifying firms to which solicitations for Letters of Interest should be directed.

Q#5 Does the Project Manager resume count towards the ten (10) LOI page limit?

A#5 Yes. The resume is included in the page count limitation.
