ATTENTION OF RESPONDENTS IS DIRECTED TO:

ANSWERS TO QUESTIONS RECEIVED THROUGH 11:00 A.M., MARCH 2, 2012

ANSWERS TO QUESTIONS RECEIVED THROUGH 11:00 A.M., MARCH 2, 2012:

Q#1 Will the consultant be required to perform field survey to obtain existing pavement elevations? We did several third lane widening sections several years back and the Commission provided the pavement survey.

A#1 No, Field Surveys for topographic information will not be required.

Q#2 Will the consultant need to perform soil borings for the project?

A#2 No, the Commission will secure the services of a Geotechnical Consultant to perform this Work. The complete report will be made available to the Selected Firm.

Q#3 Are the completed plans that the Commission developed for the three sections mentioned in the RFP available for review?

A#3 Yes, these plans will be made available for review at the Commission's office in Berea. Contact Kevin Golick, Procurement Manager, at 440-234-2081 x1151 to schedule an appointment.

Q#4 To assist us in the preparation of our Project Approach, it would be helpful if we could examine the construction documents for at least one of the three previous sections. Could I arrange a time to come to the OTC offices to review these plans? Also plans of the third lane construction through this section would be useful.

A#4 See answer to question #3.

Q#5 In regard to your RFP for Design Project No. 71-12-01, is the Commission's "Mainline Pavement Evaluation" document and plans from the reconstruction projects available for viewing or download?

A#5 Yes, the Commission's Mainline Pavement Evaluation will be made available for review at the Commission's office in Berea. Contact Kevin Golick, Procurement Manager, at 440-234-2081 x1151 to schedule an appointment.
