****MEDIA ALERT****

Ohio Turnpike bridge project in Sandusky County may slow traffic

BEREA (Sept. 26, 2016) – Starting tonight at 8:00 p.m., weather permitting, the Ohio Turnpike eastbound between mileposts 81 and 84 in Sandusky County, will be reduced to a single lane until approximately 3:00 p.m. on Tuesday, Sept. 27.

The project will require a 50 mph work zone and is due to a mainline bridge deck repair of the right and center lanes on the Ohio Turnpike eastbound over the North Coast Inland Trail, west of Waggoner Road in Sandusky County.

Factors that may affect exact project start time and completion include inclement weather and unforeseen project complications. For updates, follow the Ohio Turnpike on Twitter: @OhioTurnpike.

###

The Ohio Turnpike is a 241-mile toll road offering one of the safest, best and most convenient routes for motorists to reach east/west destinations along the northern corridor of Ohio.
