FOR IMMEDIATE RELEASE:

Ohio Turnpike to begin use of night-time work zones to aid safety and traffic flow

BEREA (May 13, 2016) – To minimize delays for travelers and to increase safety for customers and employees, the Ohio Turnpike will be staffing night-time work zones with its maintenance workers beginning Monday, May 16.

Maintenance operations, such as full and partial depth pavement repairs, joint sealing, and raised pavement marker replacement typically require closing two lanes of traffic. As a result, double-lane closures during day-time travel often cause traffic to back up during heavy traffic periods, especially during the summer.

"Working at night when there is lower traffic volume has resulted in fewer traffic accidents and safety incidents in our construction zones," said Executive Director Randy Cole, Ohio Turnpike. "Additionally, there are fewer backups during the day and customers appreciate being able to get to their destinations on time."

Portable electronic message signs will caution customers prior to arriving in night-time work zones, which will be in use between Toledo and Youngstown (mileposts 64 and 218) between May 16 and Sept. 15, 2016. The scheduled hours of work are from 9:00 p.m. to 7:00 a.m., Monday through Friday.

The Ohio Turnpike reminds travelers to observe reduced speed limits in work zones or face doubled fines.

Night-time Work Zones begin the week of May 16 in the following locations:

<u>Dates</u>	County/Municipality	Mileposts	Lanes	Work performed
May 16-20	Sandusky/Sandusky	91.8-93.1	Eastbound left	Pavement repairs
	Township		and center	and hot sealing
May 16-20	Sandusky/Townsend	101.3-100.3	Westbound right	Pavement repairs
	Township		and center	and hot sealing
May 16-20	Cuyahoga/Olmsted	156-157.7	Eastbound right	Pavement repairs
	Township, City of		and center	
	Olmsted Falls			
May 16-20	Summit/Boston	175.5-174	Westbound left	Pavement repairs
	Township		and center	and hot sealing
May 16-27	Trumbull/Braceville	209-212	Eastbound left	Pavement repairs,
	and Newton		and center	hot sealing and
	Townships			bridge deck
				repairs

Please note that all closures – both opening and closing dates – are subject to change due to weather. The 2016 construction season on the Ohio Turnpike is its largest in 15 years. This is the third consecutive year for the Ohio Turnpike to deploy night-time work zones.
