ATTENTION OF RESPONDENTS IS DIRECTED TO:

**ANSWERS TO QUESTIONS RECEIVED THROUGH END OF INQUIRY PERIOD
5:00 P.M., SEPTEMBER 14, 2011**

ANSWERS TO QUESTIONS RECEIVED THROUGH END OF INQUIRY PERIOD:

Q#1 Does the OTC have a construction bid date for this project?

A#1 There is not a firm date, however, the intent is to perform this work during the 2012 construction season

Q#2 Thank you for the designation of DGL Consulting Engineers on the shortlist for the subject project. Could The Commission please confirm the following prior to the submission of our technical proposal: Can we assume that plans will be available for, at a minimum, each of the bridges that are to be load rated?

A#2 Yes, bridge plans will be made available to the Selected Consultant.

Q#3 We assume that OTC will require the consultant to coordinate with the impacted local jurisdictions as we have done on similar past projects - correct for this assignment also?

A#3 Yes, the Selected Consultant will be required to coordinate the projects with all local jurisdictions

Q#4 Should we assume that all testing to be performed in the course of the bridge evaluations will be handled through the consultant's contract and under the direction of the consultant?

A#4 Yes Should the Selected Consultant recommend specialized testing that requires an additional sub-consultant, with the Commission's prior approval, that work will be managed by and through the Selected Consultant.
