

**OHIO TURNPIKE COMMISSION**

682 Prospect Street  
Berea, Ohio 44017

**NOISE MITIGATION STUDY**

**PROJECT NO. 71-07-08**

**ANSWERS TO QUESTIONS RECEIVED THROUGH  
10:00 A.M., July 5, 2007**

Q#1 May the LOI be submitted electronically as a PDF file?

**A#1 *The LOI should be submitted in hard copy to the Commission's Berea offices by the July 6, 2007 deadline.***

Q#2 How much weight does the Project Manager being an Ohio PE carry in the selection process? Would having the overall Project Manager being a non-Ohio PE and having our subconsultant's Project Manager being an Ohio PE score as many points as having the overall Project Manager being an Ohio PE?

**A#2 *The Commission has not determined what weight will be given to whether the project manager is an Ohio-registered PE. Only after we receive the LOI's, will we be able to make this determination, as this criterion was stated as a preference not a requirement.***

Q#3 Does the phrase "monitoring the pilot program" in the RFP carry the expectation of conducting traffic noise measurements in the field?

**A#3 *Yes.***
