ADDENDUM NO. 1
PROJECT NO. 59-16-03**

ANSWERS TO QUESTIONS RECEIVED THROUGH 1:00 P.M., MARCH 23, 2016

Q#1 Per the typical on page 4/14, it says that the shoulder width is noted on the plans. I cannot find where the shoulder width is mentioned. Please clarify the shoulder width throughout this project.

A#1 The shoulder widths are provided on Plan Sheet 2 of 14 and Plan Sheet 3 of 14. As an example, on Ramp C, at approximate station 25+19.15, the right shoulder width is shown as ten (10) foot, the ramp width is fifteen (15) foot, and the left shoulder width is four (4) foot. The combined ramps, Ramp B-C and Ramp F-G, will show only the ramp width and outside shoulder. As an example, on Ramp B-C, at approximately station 10+50, the right and left shoulder widths are eight (8) foot and the ramp widths are twelve (12) foot. The remaining ramps are delineated in the same fashion.

Q#2 Does the OTC have a pavement summary sheet? It would be nice to know how much excavation and pavement are being placed per ramp.

A#2 No, a pavement summary sheet is not available.
