**CORRECTING THE SQUARE FOOTAGE SPECIFIED FOR THE GAME ROOM TO  
APPROXIMATELY 191 SQUARE FEET**

**ANSWERS TO QUESTIONS RECEIVED THROUGH  
OCTOBER 18, 2016**

**Q#1** On your sheet it say that the square footage is 288 ft but looking at the space that doesn't seem right. What are the actual length and width dimensions so I can determine how to fit into the bump-back location. Please contact me at your earliest convenience so that I can finish our company's proposal.

*A#1 Dimensions of game rooms are 19'4" (width) x 9'11" (depth) x 8'7" (height). Accordingly, the RFP is modified through this Addendum No. 1 to delete the size specifications originally stated on pages 3, 7 and Attachment I of the RFP, incorporate the exact definitions provided in the previous sentence and specify that the available space is approximately 191 square feet.*
