MODIFICATIONS TO THE REQUEST FOR LETTERS OF INTEREST

Issued by the Ohio Turnpike and Infrastructure Commission through Anthony D. Yacobucci, Chief Engineer, and Mark R. Musson, Director of Contract Administration.

Anthony D. Yacobucci Date

Mark R. Musson Date

Q#1 Given the specialized nature of the project, would the Commission consider a Project Manager who is a Professional Engineer that is not currently registered in Ohio, but will apply for their Ohio PE registration through reciprocity?

A#1 Yes. The Subpart 4 of the LOI Submission Requirements is modified through this Addendum No. 1 to provide that the proposed Project Manager must be a professional engineer eligible in Ohio for reciprocity registration, and the application for which filed on or before the due date of the LOIs.

Q#2 We are considering the potential of teaming with integrators that propose to deliver the modernized toll collection system that the design services under Project No. 71-19-07 are intended to support. Can we perform both roles as the consultant to the Commission and to the integrator?

A#2 No. The LOI is modified through this Addendum No. 1 to provide that the Commission will not approve any selected Consultant or Subconsultant under this Project No. 71-19-07 to team, partner, consult or otherwise subcontract with or for any respondents to the Commission's separate RFP issued to select a Toll Collection System Integrator under Project No. 64-19-01.
