Issued by the Ohio Turnpike and Infrastructure Commission on April 16, 2019 through Mark R. Musson, Director of Contracts Administration.

A handwritten signature in blue ink, appearing to read "Mark R. Musson", written over a horizontal line.

Mark R. Musson

ANSWERS TO QUESTIONS RECEIVED THROUGH 5:00 PM ON APRIL 15, 2019

Q#1 I am reading through the RFP now and do not see a specification for either AC Level 2 charging stations, or DC Fast charge stations. Is the Commission leaving it up to the bidders to propose what level of charging stations they propose to install? Or does the Commission have guidance to offer?

A#1 The Commission has a strong preference for fast charge stations. Motorists will generally remain at the Service Plazas for an hour or less to use the available amenities. Efficient equipment for delivering a significant charge is important for accomplishing the objectives of the RFP.
