**OHIO TURNPIKE AND INFRASTRUCTURE COMMISSION
ADDENDUM NO. 3
PROJECT NO. 43-16-02**

QUESTIONS AND ANSWERS THROUGH 1:00PM ON MARCH 2, 2016

Q#10 How can we get some drawings for the Sanitary Force Main? Is that line still in service? Will it be in service during the cleaning and painting operations? If yes, the coating system for the bridge steel may not work due to sweat that may form.

A#10 The Commission cannot provide drawings for the Sanitary Force Main, but it is comprised of a 24-inch carrier pipe containing an 8-inch sanitary line and the Commission does not anticipate condensation to develop on its exterior under normal weather conditions.
