PROJECT NO. 99-18-04**

Ref: General Engineering Services

The Ohio Turnpike and Infrastructure Commission (“Commission”) issues this Request for Letters of Interest (“LOIs”) to perform professional engineering services on a task order basis for a period of two years commencing upon contract execution. The Commission anticipates selecting at least two (2) consultants to perform the general engineering services. See the Draft Scope of Services for a more detailed description of the required services, attached as Exhibit A.

Consultants interested in obtaining a current draft of the RFP may request the draft through the means described below for making inquiries. Interested firms may also submit specific questions regarding the RFP and/or the LOI requirements through the process described below.

Those interested in responding to the RFP must have a completed “Request For Qualifications” (“RFQ”) package for calendar years 2017-2018 on file with the Commission to be considered as a potential respondent to the RFP. If a firm has not already responded to the RFQ, the RFQ package may be obtained through the inquiry process and its response submitted simultaneously with the LOI.

LOIs shall serve to provide information for the Commission to evaluate the respondents’ qualifications to perform the services required. (See page 2 for LOI’s content requirements). The significant dates related to the Commission’s selection of the Consultant to perform the required services are currently established as follows:

- April 10, 2018 at 5:00 PM** (Eastern) – Letters of Interest due
- April 24, 2018** – Invitation for shortlisted consultants to respond to the RFP
- May 8, 2018 at 5:00 PM** (Eastern) – Inquiry Deadline
- May 15, 2018 at 5:00 PM** (Eastern) – Proposals Due

Any questions **must** be addressed in writing and emailed to the Commission at: [purchasing@ohioturnpike.org](mailto:purchasing@ohioturnpike.org) prior to the Inquiry Deadline. Do not contact the Commission by phone regarding this matter, and do not address questions through any means other than the email address provided. Answers to all questions will be compiled and copy of each question and the Commission’s response will be posted on the Commission’s Website, [www.ohioturnpike.org](http://www.ohioturnpike.org).

LOIs must be submitted by 5:00 p.m. (Eastern Time) **on April 10, 2018** to the following address (email submittals are not acceptable):

## Instructions for Small Business Enterprise Utilization Plan

Box 1: Name of Respondent submitting LOI.

Column 1: Name of the Small Business Enterprise (“SBE”) participating on the project. To receive credit towards contract goal, SBEs must be certified with the Commission at time of bid, or eligible for fast track certification (i.e., certified as DBE or SBE with ODOT or EDGE certified with Ohio DAS). If a SBE is performing multiple scopes, repeat the name of the SBE for each scope that will be performed and the respective amount.

Column 2: The Project Role that the SBE will be performing as follows:

- Prime Consultant
- Subconsultant

Column 3: A description of the Work to be performed by the SBE must be consistent with the industry used for its certification. The Respondent may rely upon the descriptors listed in the Commission’s Certification List available here: <http://www.ohioturnpike.org/business/mbe-fbe>, or those eligible for Fast Track certification as DBE here: <http://www.dot.state.oh.us/Divisions/ODI/SDBE/Pages/DBE-Directory.aspx> as SBE here: <http://www.dot.state.oh.us/Divisions/ODI/SDBE/Pages/SBE.aspx> and EDGE here: <http://eodreporting.oit.ohio.gov/searchEDGE.aspx>.

A respondent subletting a portion of a bid item shall state “**Partial**” and describe the Work that is included (e.g., “Surveying (Partial) – Site Plan”).

Column 4: List the total amount to be subcontracted to each SBE for the services they are performing.

Column 5: This is the percentage of the project each line listed in the certification that the prime intends to apply towards meeting the Contract goal. It may be that only a portion of the amount subcontracted to a SBE in Column 4 is eligible to be credited toward meeting the goal **See Note**. The Commission will utilize the sum of this column (Box 3) to determine whether or not the respondent has met the goal. In the event of an arithmetic error in summing column 5 or an error in making appropriate reductions in the amounts in Column 4, then the sum will be corrected and the total (Box 3) will be revised accordingly.

**Note:** For Work self-performed by a SBE proposing to serve as the lead consultant, the respondent may claim **only 20% of the amount self-performed** (Column 4) towards meeting the goal (Column 5).

**Note 2:** For Work performed by SBE subconsultants, the respondent may claim **100% of the Commercially Useful Functions performed by subconsultants** within the industry code qualifying for SBE certification.

Box 2: Box 2 is the Contract goal for SBE participation goal appearing on the Request for Letters of Interest.

Box 3: Box 3 is the sum of the values in Column 5. This value must equal or exceed the Contract goal amount written in Box 2, or Good Faith Effort Demonstration is required if insufficient SBE Participation has been achieved. See the following pages (OEI-4 and OEI-5) for the materials necessary for demonstrating the Respondent’s Good Faith Efforts.

## **GUIDANCE FOR DEMONSTRATING GOOD FAITH EFFORTS TO ACHIEVE OR EXCEED THE CONTRACT GOAL**

If the SBE Utilization Certification and Plan fail to document commitment to achieving the SBE Goal set forth in the request for Letters of Interest, complete the Good Faith Effort Demonstration Form to document necessary and reasonable actions that, by their scope, intensity, and appropriateness, would reasonably be expected to attain SBE participation that meets or exceeds the goal.

The Commission's determination of Good Faith Efforts is based on consideration of the quality, quantity, and intensity of the different kinds of actions taken. The activities or efforts undertaken to when making a Good Faith Effort must be those that one could reasonably expect to deploy when seriously, actively and aggressively attempting to obtain SBE participation in relative proportion to those that are Available to capably perform Commercially Useful Functions under the Opportunities presented in given contract.

The analysis for determining whether the respondent fulfilled its obligation to use Good Faith Efforts, the Commission will consider the demonstration of the following, which the form is intended to illicit from the respondents:

- 1. "Opportunities"** means the subcomponents of the project that are identifiable as economically viable scopes of work that may interest subcontractors in responding to the respondent's solicitations to participate in the Project. The unique opportunities each project presents is determined based on the nature of the project using in-house expertise and the aggregation of those that the respondents may identify.
- 2. "Availability"** means the degree of ready, willing and able SBEs available to capitalize on the opportunities presented under each project. The availability consideration examines the amount of SBEs in the relevant marketplace using (1) the Commission's list of certified SBEs (available at <http://www.ohioturnpike.org/business/doing-business-with-us/mbe-fbe>); (2) the Unified Certification Program's DBE Directory (<http://www.dot.state.oh.us/DBE/pages/DBE-Directory.aspx>); (3) the Department of Administrative Service's directory of EDGE certified businesses: <http://eodreporting.oit.ohio.gov/searchEDGE.aspx>; the Ohio Department of Transportation's registry of SBEs: [http://odotextprt.dot.state.oh.us/ViewReport.aspx?reportPath=%2fprd%2fpreconstruction%2fpublic%2fsbe\\_vendor\\_list](http://odotextprt.dot.state.oh.us/ViewReport.aspx?reportPath=%2fprd%2fpreconstruction%2fpublic%2fsbe_vendor_list); and (5) any other Ohio-centric database that the Commission recognizes as using standards that are substantially similar to the requirements for certification with the Commission.
- 3. "Efforts"** means the documented attempt to meaningfully and earnestly solicit the interest of available SBEs to fulfill the opportunities presented to perform on the Project, including making a sufficient number of contacts to follow up with any available but non-responsive SBEs and negotiating in good faith with available SBEs to reach reasonably agreeable terms for their participation.
- 4. "Commitments"** means the respondent representations in the Utilization Certification and Plan to have successfully achieved commitment(s) to utilize verified SBEs to perform on the project.

The determination that a given respondent satisfactorily used and demonstrated its Good Faith Efforts is based on the holistic review of the Opportunities, Availability, Effort and Commitment documented in the bid or proposal documents.

### **A. Opportunities and Availability**

This assessment of opportunities and availability compiles those SBEs that the respondents may identify in their Utilization Plan and Good Faith Efforts Demonstration forms, but also may go outside the form to identify additional possible opportunities under the project and recognized certification registries for possible untapped available firms.

A respondent can demonstrate fulfilling the **Opportunity** component is documenting that the respondent

performed actions that include the following:

- a. Selected and packaged portions of the work in order to increase the likelihood that the SBEs will respond to solicitations expressing interest in participating on the project. This includes, where appropriate, breaking out contract work into economically feasible units to facilitate participation through subcontracting.
- b. Soliciting the interest of all SBE entities available to perform on the project through reasonable, meaningful and available means and providing a reasonable and meaningful time to respond.

The means for a respondent to fulfill the **Availability** component of demonstrating good faith efforts includes the following:

- a. Searching recognized registries identifying certified SBEs that potentially could fulfill the opportunities under the project.
- b. Identifying other possible ready, willing and able SBEs through the effective use of the services of available from plan rooms, community organizations, contractors' groups, local, state, and Federal minority/women business assistance offices, and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and utilization of SBE entities.

## **B. Efforts and Commitment**

Respondents must document level of exertion used to engage the Availability pool on the Opportunities presented under the project. The **Efforts** component considers the active attempts to successfully reach terms with interested SBE firms, which may include the following:

- a. Negotiating in good faith with interested SBE entities so as to facilitate their participation on the Project.
- b. Not rejecting SBE entities without sound reasons based on a thorough investigation of their capabilities.
- c. Assisting SBE entities in obtaining bonding, lines of credit, or insurance as required.

The **Commitment** component provides a cross-check on the identified and documented Opportunities, Availability and Efforts. Unless the analyses under the Opportunities, Availability and Efforts prongs demonstrate otherwise, the utilization of Good Faith Efforts is expected to result in the respondent successfully representing its achievement of SBE participation goal for the contract. The respondent must provide justification for any lack of Commitment by showing that the failure occurred despite its Good Faith Efforts through the demonstration under the Opportunity, Availability and Efforts prongs of the test.
