

Chief Engineer

Ohio Turnpike - Berea, OH

The Ohio Turnpike & Infrastructure Commission is seeking an experienced Chief Engineer to lead our Engineering Department at the Administration Building in Berea, OH. Please consider bringing your experience, talents, and goals to one of Northern Ohio's vital resources and join the future of transportation.

If you are interested, here's some of what we can offer you:

- Salary \$145,600 annually
- Excellent pension and health care benefits
- Generous paid leaves
- Stability

Main Job Tasks:

- Responsible for the administration and supervision of the operational functions of the Ohio Turnpike & Infrastructure Commission, including Engineering and Maintenance.
- Provides engineering advice and services to the Commission.
- Designates, subject to the approval of the Executive Director, an employee(s) on the staff of the Engineering Department to serve as Deputy Chief Engineer.
- Modifies and rescinds any standard drawings pertaining to any Turnpike project or improvement thereof, and issues new standard drawings thereto, and to do all things that, in his/her judgment, may be necessary in order to assure that a project or improvement shall be designed and constructed in conformity with the standard drawings.
- Hires, manages, supervises and directs the work of the engineering staff, including engineers and support personnel, engineering consultants, inspectors, material testing laboratories.
- Evaluates and recommends award of construction contracts for the furnishing of labor and materials pursuant to competitive bidding requirements.
- Plans future and administers current construction and reconstruction projects.
- Prepares and administers annual operating and capital improvement budgets.
- Performs any other duties as may be assigned by the Executive Director and/or Deputy Executive Director.

Work Characteristics:

- Knowledge of civil engineering; public relations*; OSHA safety practices; employee training and development; supervisory principles and techniques.
- Skill in use of computer equipment.
- Ability to comprehend and interpret variety of civil engineering principles, techniques, procedures, criteria, plans, specifications and related data.
- Define problems, collect data, establish facts and draw valid engineering/technical and managerial conclusions. Use statistical analysis.
- Cooperate with co-workers on group projects.
- Handle routine and sensitive contacts with government officials, consulting firms, contractors, employees and general public.
- Plan and develop engineering projects with unique or controversial problems and/or novel engineering related concepts and approaches.
- Effectively accomplish several work assignments simultaneously.

(*) Developed after employment

Minimum Qualifications:

- Bachelor of Science in Civil Engineering required.
- Must be a Licensed Professional Engineer (PE) in the State of Ohio with a minimum of ten (10) years experience in a responsible position involving the management of engineering and construction personnel and projects.
- Exceptional interpersonal, written, and oral communication skills required.
- Valid State of Ohio driver 's license required.

Unusual Working Conditions:

The predominant work environment is the office; however, must be physically capable and sufficiently agile to perform a variety of field activities, which may require climbing, walking, running, and lifting, visual and auditory observations. Includes the ability to type and write clearly and concisely. If necessary, at times may require 24 hour per day availability for some job duties. Field activities are necessary including supervision, inspection, verification and troubleshooting of turnpike facilities. The work environment includes driving and field inspections during the day and possibly night. May be exposed to extreme weather conditions dirt, grease, dust, unpleasant odors, confined spaces, and loud noises while working outdoors. Must be able to navigate construction work sites on foot. Some climbing of ladders or obstacles may be required. May require varying work hours based upon construction season and projects. Required to travel throughout the distance of the Ohio Turnpike.

Application Process:

Those interested may obtain a copy of the employment application [HERE](#). Individuals must print the application, fill out using a blue or black pen, and send it along with a cover letter and resume via U. S. mail to:

The Ohio Turnpike & Infrastructure Commission
Attn: Human Resource Manager
Reference Code: Chief Engineer
682 Prospect Street
Berea, Ohio 44017

Applications will be received until position is filled.
