ANSWERS TO QUESTIONS RECEIVED THROUGH 2:00 P.M. ON NOVEMBER 18, 2024:

Q#1 The MP 167.3 approach slabs have a combination of GFRP and epoxy coated, grade 60 reinforcement. Both materials have been quantified under the respective reinforcement bid items. Normally reinforcing for approach slabs is incidental to item 526 as is the case for MP 162.0. Will the owner please confirm how approach slab reinforcement is to be paid at each bridge?

A#1 The MP 162.0 Bridge's approach slab, including reinforcing steel, shall be paid for with Ref. No. 91, Item 526 REINFORCED CONCRETE APPROACH SLABS (T-15").

The MP167.3 Bridge's approach slabs and reinforcing shall be paid for with Ref. No. 118, Item 526 REINFORCED CONCRETE APPROACH SLABS (T=12"), AS PER PLAN note on sheet 35, which includes separate payment items for the GFRP reinforcement.
