ANSWERS TO QUESTIONS RECEIVED THROUGH 2:00 P.M. ON APRIL 1, 2024:

Q#1 The RFP is currently under review by our corporate legal team; however, I will need to take exception and add additional charges related to Overage Service, Recycle Contamination, Roll Off Trips, Roll Off Dig Out and Extra Pickup charges. Will this be accepted?

A#1 Per part 7 “Rates to be provided shall be limited to a monthly rate (for scheduled services), extra (out of schedule) pickups, monthly box rental/lease fee, if applicable, disposal fee (per ton) and the cost per pick-up. All rates provided shall be inclusive of any fees required for providing the indicated services. Fees shall include, but not be limited to, initial delivery of storage container(s), replacing corroded containers, pick up, emptying, processing the collected material, transportation, disposal, fuel surcharges, environmental fees, and any other fees that are applicable to collection and disposal of the indicated material. No other fees for the specified services rendered will be considered.”

Any additional fees required outside of normal container servicing shall be at the currently published rates and shall be subject to a review by the Chief Engineer. Additionally, it shall be understood that sufficient proof will be requested to be provided to confirm that the additional service(s) was required to service the container. Any fees associated with pickup attempts outside of the normal working hours indicated in Part 8, will not be considered. However, some locations may permit extended operating hours, which will be discussed following award.

Regarding Extra Pickup charges, the Bid Form already has a place to indicate an Extra Pickup charge.
