**ATTENTION OF BIDDERS IS DIRECTED TO:**

**ANSWERS TO QUESTIONS RECEIVED THROUGH 11:00 A.M. ON NOVEMBER 4, 2021**

Issued by the Ohio Turnpike and Infrastructure Commission through Aimee W. Lane, Esq., General Counsel.

*Aimee W. Lane*

\_\_\_\_\_  
Aimee W. Lane, Esq.  
Director of Contracts Administration

November 4, 2021  
Date

**Q#2 Can the bollard detail attached be used with the exception of the length? We would like to use 8'-4" total bollard length with the 10" embed leaving a total of 7'-6" above grade. This will utilize the stock length of pipe and minimize waste and also assist in the setting without the welded cap which will allow concrete installation after the bollard is set.**

*A#2 The submitted pipe bollard alternate has been reviewed and compared to the design plans. The plans specify the top of the bollard have a minimum height above the slab of 10 feet and the requested alternate would be 2 feet – 6 inches shorter. Additionally, the alternate pipe bollard anchoring method using a plate and wedges will not be as strong as a grouted bollard. Therefore, the submitted alternate pipe bollard detail is not an acceptable alternate for what is specified in the plans. The bidder is required to provide what is called for in the plans.*

**Q#3 The Department of Contracts Administration received a verbal question about potential subcontractors for the Project.**

*A#3 As a reminder, bidders may search for potential subcontractors using the following links:*

*ODOT Certified Contractors DBE Directory – by NAICS Code*

*<https://www.dot.state.oh.us/Divisions/ODI/SDBE/Pages/DBE-Directory.aspx>*

*Ohio Turnpike and Infrastructure Commission Certified Contractors*

*<https://ohioturnpike.diversitycompliance.com/Default.asp>*

*ODOT Pre-Qualified Contractors*

*<https://dotcontracts.force.com/s/pre-qualified-contractors>*

*A list of northern Ohio contractors for concrete work is attached to this Addendum No. 2 which was taken from the foregoing list of ODOT Pre-Qualified Contractors*

*The foregoing is not an exhaustive list of potential contractors or a representation by the Commission that any listed contractor is willing, able or available to perform work on the Project. Additionally, the foregoing is provided for informational purposes only and is not a representation that only the listed contractors will be approved by the Commission to perform work on the Project.*

*The Project has an SBE goal of 16% and bidders must submit a completed Small Business Enterprise (SBE) Participation Certification and Utilization Plan with the bid. If the Certification and Plan fail to demonstrate a commitment to meeting or exceeding the 16% SBE goal, the bidder must satisfactorily complete and submit a Good Faith Efforts Demonstration. "Good Faith Efforts" means performing necessary and reasonable actions that, by their scope, intensity, and appropriateness, would reasonably be expected to attain SBE or MBE and LDBE participation in relative proportion to those*

*that are available to capably perform Commercially Useful Functions under a given contract. The determination of Good Faith Efforts is based on consideration of quality, quantity, and intensity of the different kinds of actions taken. The activities or efforts undertaken when making a Good Faith Effort must be those that one could reasonably expect to deploy when seriously, actively and aggressively attempting to obtain SBE or MBE or LDBE participation in relative proportion to those that are available to capably perform Commercially Useful Functions under the opportunities presented in a given contract. For more information, see the Standards and Practice Manual for Small, Minority and Disadvantaged Business Enterprise Inclusion Program <https://www.ohioturnpike.org/business/oei>.*
