A#2 The one-year anniversary inspection for SP 514A will be waived.

Q#3 Please advise if the right lane and shoulder closure are to remain in place until the steel repairs are completed as there are conflicting notes regarding the Permitted Lane Closures restrictions.

A#3 Mainline right lane and shoulder temporary closures are to remain in place when performing structural steel repairs. Any lane closures required during the restricted period listed in SP 104 H(6) require written requests and approval by the Chief Engineer.
