ANSWERS TO QUESTIONS RECEIVED THROUGH 2:00 P.M. ON AUGUST 17, 2026:

- Q#1** I have a question regarding Project 43-27-03, specifically structure White Bridge Road (CR 7.75) over Turnpike. Is it correct that bearings are not being replaced at Span 1, Pier1 and Span 4, Pier 3? Just seemed odd that not all bearings were being replaced.
- A#1 The bearings at Piers 1&3 are expansion elastomeric bearings that were installed in 2013 and are in a good condition (rated 7 according to the 2026 Annual Bridge Inspection Report) and will not be replaced with this project. The 2012/2013 rehabilitation plans (Project No. 43-12-03 REBID) are included in this addendum.*
