

## OHIO TURNPIKE AND INFRASTRUCTURE COMMISSION

682 Prospect Street  
Berea, OH 44017

### **Intent to Advertise a Request for Proposals for Image Review Services**

In the coming weeks, the Ohio Turnpike and Infrastructure Commission (the “Commission”) in the State of Ohio will solicit Requests for Proposals (“RFP”) from vendors that are interested in providing license plate image review services for the new toll collection system planned for the Ohio Turnpike. Further information on the Ohio Turnpike can be found at: <http://www.ohioturnpike.org>

The scope of services consists of furnishing all labor, equipment, supplies, materials, services, and incidentals to provide new license plate image review services to support the Commission’s new open road tolling system and the video enforcement system.

The Commission intends to issue a separate RFP for each of the following in 2021:

- print services, and
- collections.

Interested vendors are strongly encouraged to register to be added to the Commission’s vendor list by completing the online vendor registration submittal available at: [OTIC Vendor Login](#) (using “NAICS” North American Industry Classification System six-digit code: 518210) or by sending an email requesting vendor log-in information to [purchasing@ohioturnpike.org](mailto:purchasing@ohioturnpike.org).

Once available, the Commission will automatically send the RFP to registered vendors. The Commission will also post instructions for obtaining the RFP documents at: [OTIC RFPs](#) on December 1, 2020.

All questions regarding the Commission’s Image Review Services RFP should be directed to [purchasing@ohioturnpike.org](mailto:purchasing@ohioturnpike.org).
