ANSWERS TO QUESTIONS RECEIVED THROUGH 12:00 P.M. ON MAY 22, 2020:

Q#10 Would the Ohio Turnpike and Infrastructure Commission consider a Project Manager's current professional licensure in another state as meeting the contractual requirement of the Project Manager to possess licensure in Ohio as a Professional Engineer, if their Ohio licensure reciprocity application is currently delayed due to COVID-19 impacting normal review/approval timelines? If the response to Question 1 is no, we kindly request a response to this follow up question:

A#10 No, as stated in the LOI and restated in LOI Addendum No. 1 A#7, the proposed Project Manager must be a professional engineer registered in the State of Ohio at the time that the response to the RFP is submitted.

Q#11 Would the Ohio Turnpike and Infrastructure Commission consider the inclusion of a licensed Ohio professional engineer as a Deputy Project Manager to support a proposed Project Manager who is a professional engineer with licensure in another state whose application for reciprocity in Ohio has been delayed due to COVID-19 as meeting the licensure requirements for the Project Management team.

A#11 Please see response to Q#10.
