SERVICES (2024-2028)**

PROJECT NO. 99-23-13

PART I. BACKGROUND INFORMATION

The Ohio Turnpike and Infrastructure Commission (“Commission”), a body corporate and politic constituting an instrumentality of the State of Ohio, is responsible for operating and maintaining the Ohio Turnpike, a toll road officially known as the James W. Shocknessy Ohio Turnpike. The Ohio Turnpike is a limited access highway extending 241 miles across northern Ohio. Additional information regarding the Commission and the Ohio Turnpike can be found at <https://www.ohioturnpike.org/home>.

The Commission issues this Request for Proposals to select a qualified independent engineer or engineering firm having a nationwide and favorable reputation for skill and experience in providing the services required of the Consulting Engineer, as described in the Scope of Services, attached hereto as Appendix A. Proposals are sought from Respondents offering to serve as the Commission’s Consulting Engineer for a period of five (5) years, commencing January 1, 2024, and continuing through December 31, 2028. The Commission is inviting Respondents to propose to perform the services required of the Consulting Engineer under the Master Trust Agreement between the Ohio Turnpike and Infrastructure Commission and the Trustee, Huntington National Bank, as amended and restated through the Eighteenth Supplemental Trust Agreement, dated April 8, 2013 (“Master Trust Agreement”) and subsequently appended most recently through the Twenty Second Supplemental Trust Agreement, dated February 2, 2018. Pertinent provisions of the Master Trust Agreement are included in the Scope of Services, Appendix A.

In addition to the services that the Commission is obligated to obtain from the Consulting Engineer under the Master Trust Agreement, the Consulting Engineer and its subconsultants (if any) shall provide the professional engineering and other services further described in the Scope of Services, attached hereto as Appendix A.

Any person responding (a “Respondent”) must clearly demonstrate depth of experience in providing the required services, including familiarity with the various methodologies and industry best practices for performing the required tasks.

Those firms interested in responding to the Request for Proposals must have a completed “Request for Qualifications” (“RFQ”) package for calendar years 2023-2024 on file with the Commission to be considered as a potential Respondent. If a firm has not already responded to the RFQ, the RFQ package may be obtained through the inquiry process and its response submitted simultaneously with the RFP.

PART II. ASSISTANCE FROM COMMISSION PERSONNEL

Commission personnel will be available to assist, as needed, with the coordination of the various aspects of any assignments issued by the Chief Engineer. Commission personnel will also make available all documents in the Commission’s possession to the Consultant required for completion of its duties. Generally, the Commission’s Chief Engineer will administer and manage the contract for the Consultant’s services.

PART III. RFP REQUIREMENTS

The general nature and scope of work for the Project are set forth in Appendix A (“Scope of Services”). The Commission expects that Respondents will have experience in providing the services of this nature and should understand the general scope of the services necessary to successfully fulfill the Commission’s requirements. Respondents should prepare Proposals that are concise and that include an explicit response to the items listed below:

1. **Organization:** Submit evidence to support a determination that the Respondent has a nationwide and favorable reputation for its skill and experience in performing the services required for the Consulting Engineer. Specify the number of professional personnel by discipline based in the Ohio office in which the bulk of the services will be performed. Also, include an affirmative statement of the ability of the Respondent in terms of its workload and availability of qualified personnel, equipment and facilities to perform the required services competently and expeditiously in accordance with the RFP requirements.
2. **Project Manager:** Designate the Project Manager who will be committed to the Commission along with a summary of his/her experience on similar projects. (Similar projects are those consulting engineering projects where this individual has been assigned as Project Manager).
3. **Key Staff Assignments:** In addition to designating the Project Manager, list the names of those professionals who will be given key responsibilities for performance of the services under the Contract, and provide supporting documentation, such as a résumé for each individual summarizing their experience on similar undertakings. Please list these individuals in order of their importance to the Consulting Engineer’s services and include their contact information (phone numbers and e-mail addresses).
4. **Quality Control:** Describe the Firm’s program for providing technical direction and administrative control to assure conformance with industry-accepted standards of quality.
5. **Proposed Subconsultants and Good Faith Effort:** Specify the portions and percentages of services to be subcontracted (if any), the qualifications of the proposed subconsultants, and your prior experience with each. Each subconsultant must provide responses to Items 1 through 4 above. Identify any subconsultants or material suppliers dedicated to fulfilling the requirements described in this RFP. Specifically disclose whether any such proposed participants are certified as Small (SBE), Minority (MBE), Disadvantaged (DBE) or EDGE firms.
6. **Technical Approach:** Show an evolutionary outline of the tasks you anticipate in the performance of the services. Include a statement illustrating the Respondent’s understanding of the scope and its capabilities to perform the requirements of this RFP, along with a narrative of how the Respondent intends to perform each of the tasks set forth in this RFP.
7. **Experience with Transportation Authorities:** List all services performed for the Ohio Turnpike and Infrastructure Commission over the last ten (10) years. Provide any additional **relevant** experiences working with ODOT, tolling agencies, or any other transportation authorities. Include work and experience related to toll facilities. Provide references from three (3) governmental or toll organizations other than the Commission for similar work during the past five (5) years. For each reference project listed provide a

contact name and phone number.

8. **Insurance:** Affirmative statement or certificate of insurance evidencing existing or ability to obtain all insurance policies carrying the coverages and limits required under the Form Contract for Consulting Engineering Services, attached hereto as Appendix B.
9. The Respondent's good faith efforts to commit to a significant economic presence in Ohio shown by:
 - a. A statement that Respondent is registered and licensed to do business in the State of Ohio with the offices of the Secretary of State and include with the proposal a copy of its certificate or other similar document(s) confirming Respondent is registered and licensed to do business in the State of Ohio;
 - b. A statement of whether Respondent pays taxes to the State of Ohio and if so, a statement that Respondent is not in arrears in the payment of required taxes;
 - c. A statement of whether Respondent has offices or facilities in Ohio (i.e., sales offices, divisions, sales outlets or manufacturing facilities) or identify facilities that demonstrate Respondent's capital investment to Ohio (including commitments to make such capital investment as part of its proposal, as applicable); and
 - d. A statement of Respondent's actions that would reasonably be expected to employ Ohio residents, increase tax revenues in the area, provide opportunities to support local businesses and/or support community and social initiatives (i.e., local government, health and wellness, education, diversity and inclusion, philanthropic or other).

PART IV. FORM CONTRACT REQUIREMENTS

In submitting a Proposal, the Respondent agrees to sign the Form Contract for Consulting Engineering Services attached as Appendix B, incorporating the Scope of Services, within ten (10) days of the Commission's delivering of a notice of award.

- B. An explanation of any concerns, requested information or exceptions related to the RFP, Scope of Services or the Form Contract for Consulting Engineering Services (attached as Appendix B).

If the Certification and Plan fails to meet or exceed the 15% Goal, the Respondent is required to demonstrate that it used Good Faith Efforts to attain SBE participation that meets or exceeds the Goal. As described in Appendix G, the Commission recognizes SBEs that are certified with the Commission or ODOT as SBE and considers DBEs certified with ODOT and firms certified as EDGE through DAS as eligible for SBE certification. Contact the Commission’s Office of Equity and Inclusion with any questions concerning the SBE Program.

PART VI. INQUIRY SUBMISSION INSTRUCTIONS

All interested parties are welcome to submit specific questions or requests for clarifications of the RFP requirements. Respondents are expected to raise any questions, exceptions, or additions they have concerning the RFP prior to the end of the Inquiry Period indicated on the cover page. Factors that may be considered by the Commission are:

- A. Competence to perform the required professional design services as indicated by the technical training, education, and experience of the firm's personnel, especially the technical training, education, and experience of the employees within the firm who would be assigned to perform the services;

The list of Respondents is posted on the Commission's website <https://www.ohioturnpike.org/business/doing-business-with-us/engineering-services>.

PART IX. OFFICE OF EQUITY AND INCLUSION

The Commission adopted its Small, Minority Business Inclusion Program in 2016 to ensure that businesses certified as a Small Business Enterprise (SBE), Minority Business Enterprise (MBE), and/or Disadvantaged Business Enterprise (LDBEs) have the fullest possible opportunity to participate in contracts involving the expenditure of Commission funds. The program is administered by the Commission's Office of Equity and Inclusion (OEI), which reviews each proposed contract and determines if opportunities exist and if so, applies a goal to the proposed contract. In some cases, no goal is applied to a proposed contract due to a lack of opportunity and availability of certified businesses.

The Commission's Office of Equity and Inclusion Standards and Practice Manual for the Small, Minority and Disadvantaged Business Inclusion Program is available on the Commission's website at <https://www.ohioturnpike.org/business/oei>.

When a goal is identified in a Request for LOIs, the respondent must submit the documentation provided by the Commission to show how the respondent will meet the goal. When the goal is waived, respondents are strongly encouraged to use "good faith efforts" or necessary and reasonable actions that would reasonably be expected to attain SBE or MBE or LDBE participation in the respondent's performance of the scope of work.

Additionally, whether the Commission applies a goal to a proposed contract or not, the program standards provide that the Commission may apply an evaluation credit of five percent (5%) to the total points awarded for responses received from SBEs, or MBEs and LDBEs consultants to perform the personal or professional services set forth in the Scope of Services. The Commission will not apply this credit in the evaluation process for responses submitted in response to this RFP.

For questions about the Commission's Small, Minority and Disadvantaged Business Inclusion Program, please visit the Commission's website at <https://www.ohioturnpike.org/business/oei>.

PART X. DEVIATIONS, EXCEPTIONS AND ADDENDA TO REQUEST FOR PROPOSALS

Respondents should raise any questions, exceptions or requested changes they have concerning the Request for Proposals during the Inquiry Period. If a Respondent discovers any ambiguity, error, conflict, discrepancy, omission or other deficiency in this Request for Proposals, that Respondent should immediately notify the Commission of such error and request modification or clarification of the Request for Proposals in accordance with the procedures outlined in PART VI. In the event that it becomes necessary to provide additional clarifying data or information or to revise any part of this Request for Proposals, addenda will be issued and posted on the Commission's website

(<https://www.ohioturnpike.org/business/doing-business-with-us/rfps>) to modify the necessary provisions of the Request for Proposals.

If a Respondent fails to notify the Commission of a known error in the Request for Proposals, and a contract is awarded to that Respondent, that Consultant shall not be entitled to additional compensation or time by reason of the error or its later correction.

The Commission reserves the right to make changes to the scope of this Request for Proposals and to clarify any of the requirements, information and/or provisions of this Request for Proposals as it deems necessary. (A) the cost of completing such System Project, and

(B) that other funds available or reasonably expected to become available for such cost, together with the proceeds of such Completion Bonds, will be sufficient to pay such cost. The authentication of Bonds shall be conclusive evidence that the conditions stated above in this Section have been met for purposes of the validity and binding effect of those Bonds and the right of the Holders thereof to share in the System Pledged Revenues, as provided in the Trust Agreement;

Section 4.08 Revenue Fund. On or before the tenth (10th) day of each month beginning with the first calendar month following the first date on which any Bonds are issued, amounts on deposit in the Revenue Fund as of the close of business on the last day of the preceding month shall be disposed of only in the following manner and priority and in an amount sufficient to make the required payment and deposit and all past due payments and deposits within such priority (provided that (a) the selection of the Gross Revenue Account or the Additional System Payments Account as the source of distribution shall be determined as provided in the agreements relating to the Additional System Payments and (b) moneys in the Additional System Payments Account shall not be used to make payments into the Expense Fund):

(b) for deposit into the Expense Reserve Account, the amount necessary to cause the amount on deposit therein to equal at the election of the Commission, (i) the greater of one-twelfth (1/12) of the Cost of Operation, Maintenance and Administration set forth in the Annual Budget of the Commission for such Fiscal Year or the highest monthly Cost of Operation, Maintenance and Administration during the previous Fiscal Year or (ii) such other amount as is recommended in a report of the Consulting Engineer to be necessary. Amounts on deposit in the Expense Reserve Account shall be applied by the Commission from time to time to pay Cost of Operation, Maintenance and Administration to the extent amounts on deposit in the Operation, Maintenance and Administrative Expenses Account are insufficient for such purposes;

Section 5.04 Consulting Engineers.

The Commission covenants that it will, for the purpose of performing and carrying out the duties imposed on the Consulting Engineers by the Trust Agreement, employ an independent engineer or engineering firm or corporation having a nationwide and favorable reputation for skill and experience in such work.

Section 5.05 Insurance. The Commission covenants that:

(b) This subsection (b) applies to any bridge constituting part of the System the cost of construction, reconstruction or improvement of which or any part of which exceeds \$1,000,000, from and after the time when any contractors engaged in reconstructing or improving any part of which shall cease to be responsible pursuant to the provisions of the respective contracts with those contractors for loss or damage to that bridge or such part occurring from any cause. The Commission will insure and at all times keep that bridge or such part insured, in a responsible insurance company or companies authorized and qualified under the laws of the State to assume the risk, against physical loss or damage however caused, with such exceptions as are ordinarily required by insurers of structures or facilities of similar type, in an amount not less than 80% of the replacement value of that bridge or such part, less depreciation, as certified by the Consulting Engineers in writing filed with the Commission and with the Trustee. However: (i) the amount of that insurance shall in any case at all times be sufficient to comply with any legal or contractual requirement which, if broken, would result in assumption by the Commission of a portion of any loss or damage as a co-insurer; (ii) such insurance may provide for the deduction from each claim for loss or damage (except in the case

EXHIBIT 1
MASTER TRUST AGREEMENT EXCERPTS

of a total loss) of not more than 2% of the total amount of insurance required by the application of the co-insurance clause, unless the Commission's insurance consultant shall approve a higher deduction; (iii) if the Commission shall determine that it is in the best interests of the Commission to insure those bridges or parts thereof under blanket bridge insurance coverage, and the Trustee consents to that type of coverage, the Commission may insure under that blanket bridge insurance coverage, in lieu of the separate coverages set forth above, in an amount of coverage as approved by the Executive Director of the Commission, the Trustee and the Consulting Engineers, but which amount shall not in any case be less than the aggregate replacement cost, as determined from time to time by the Consulting Engineers, of the two bridges commonly referred to as the "Cuyahoga River Bridges"; and (iv) if at any time the Commission is unable to obtain that insurance to the extent above required, either in amount or as to covered risks, it will not constitute an Event of Default under the provisions of the Trust Agreement if the Commission shall maintain such insurance to the extent reasonably obtainable.

Section 5.06 Use and Occupancy and Liability Insurance. The Commission covenants that it will at all times carry in a responsible insurance company or companies authorized and qualified under the laws of the State to assume the risk thereof:

(b) Public liability and property damage insurance in at least the amount, and covering at least the risks, as the Commission may determine.

In estimating full normal income for use and occupancy insurance, the Consulting Engineers shall give consideration to the expected as well as current and prior revenues from the operation of the System or from other sources, and may also make allowance for any probable decrease in the costs of maintenance or operation or other charges and expenses while use of the System is interrupted.

All use and occupancy insurance policies shall be made payable to and deposited with the Commission, and the Commission shall have the sole right to receive any proceeds of, and to collect and receipt for claims under, those policies. Any proceeds of use and occupancy insurance paid to the Commission shall be promptly deposited by it with such depository or depositories as the Commission may direct in writing to the credit of the Revenue Fund.

Section 5.08 Disposition of Property. The Commission covenants that, except as in the Trust Agreement otherwise permitted:

(a) It will not sell, lease or otherwise dispose of or encumber the System or any part thereof and will not create or permit to be created any charge or lien on the revenues derived therefrom. However, the Commission may:

(iii) Sell, exchange or otherwise dispose of any real property or release, relinquish or extinguish any interest therein as the Commission by resolution shall declare is not needed or serves no useful purpose in connection with the maintenance and operation of the System, if the Consulting Engineers in writing approve that resolution.

EXHIBIT 1
MASTER TRUST AGREEMENT EXCERPTS

Section 5.09 Related Covenants. The Commission covenants that:

(a) It will cause the Consulting Engineers to make an inspection of the System at least once each calendar year, and on or before October 1 in that year to submit to the Commission a report setting forth (i) their findings whether the System has been maintained in good repair, working order and condition, (ii) their advice and recommendations as to the proper maintenance, repair and operation of the System during the ensuing Fiscal Year and an estimate of the amount of money necessary for those purposes and (iii) their advice and recommendations as to the insurance to be carried under the provisions of Article V hereof. The Commission shall file copies of those reports with the Trustee.

Section 5.15 Audits. The Commission will cause an audit of financial statements as of December 31 of each year, prepared in accordance with GAAP, to be made of its books and accounts relating to the System and the Debt Service Fund by an independent certified public accountant approved by the Auditor of the State. Reports of each such audit shall be filed by July 1 following the date of the financial statements with the Commission and the Trustee, and copies shall be mailed by the Commission to the Consulting Engineers. Each audit report shall set forth such matters as are required by GAAP.

ARTICLE 1

GOVERNING DOCUMENTS AND SCOPE OF SERVICES; ASSIGNMENTS

1.1 Contract Documents. The documents that comprise this Contract include this Contract, including any exhibits, and the Assignment Letter(s) issued by the Chief Engineer and governed by and through this Contract, if any (the “Contract Documents”). In the event of

APPENDIX B

a conflict, the terms and conditions of any Assignment Letter control, and otherwise the terms and conditions of this Contract control.

- 1.2 Scope of Services; Assignments.** The Consultant agrees to perform and is engaged under the terms and conditions of this Contract to provide the services required as an assignment and authorized through an Assignment Letter from the Chief Engineer as further provided in Section 1.5 below. The Scope of Services includes Annual Inspections, Miscellaneous Services, Additional Assignments and Insurance, as set forth in Exhibit A, attached hereto and incorporated herein by reference.
- 1.3 Non-Exclusivity.** The Consultant shall be the Commission's "Consulting Engineer" for purposes of the Master Trust Agreement, but the Consultant is not the Commission's exclusive provider of professional engineering services. The Commission may, in its discretion, award contracts to other consultants for other professional engineering services.
- 1.4 Designated Personnel.** Prior to performing any services on a given assignment, the Consultant shall provide to the Commission for approval a list of personnel designated to perform the services along with their resumes and certifications as required. Only those designated personnel may perform those services unless Consultant obtains the Commission's approval of any substitutions or additions in advance of any change.
- 1.5 Assignment Letter.** Where the Commission has approved the list of designated personnel, the Chief Engineer will issue an Assignment Letter prior to the commencement of any services and the Assignment Letter shall incorporate the specific scope of services and the approved fee proposal for the assignment. The Consultant agrees that any Assignment Letter issued by the Commission to the Consultant under this Contract is subject to and governed by the Contract Documents, and the provisions of the Contract Documents are incorporated into such Assignment Letter unless expressly provided otherwise.
 - a. **Time for Completion.** Time is the essence of this Contract. The Assignment Letter will provide the date upon which Consultant is to complete its work unless the Chief Engineer grants a request for an extension from the Consultant. Such extension request must be made in writing to the Chief Engineer no later than seven (7) days following the date upon which any event occurs that gives rise to the need for additional time. The extension request must include a description of the event, the reasons why that event justifies an extension, the duration of the extension sought, and any other documentation requested by the Chief Engineer.
 - b. **Authorization to Proceed.** The Assignment Letter will provide the date upon which Consultant is to proceed with the work. Otherwise, Consultant is to proceed upon written authorization from the Chief Engineer.
- 1.6 Specifications.**
 - 1.6.1** Unless otherwise instructed in writing, any inspection, test or sampling to be performed by the Consultant, shall be in accordance with the Contract Documents of the Commission's Public Improvement Contract, as well as the Specifications

APPENDIX B

for the inspection or testing as most recently published by the American Society for Testing Materials (“ASTM”), the American Association of State Highway and Transportation Officials (“AASHTO”), or the current edition of the State of Ohio Department of Transportation (“ODOT”) manual entitled, Construction and Material Specifications, whichever is applicable, unless other standards and requirements are applicable, in which case the current publications containing such standards or specifications shall be followed and identified by the Chief Engineer in the Assignment Letter.

- 1.6.2** If assigned to perform inspection services, the Consultant shall inspect the work of each contractor for Defective Work in accordance with the duties and responsibilities described in the Contract Documents of the Commission’s Public Improvement Contract, which is incorporated by reference into any assignment issued to the Consultant for inspection services. If, through inspection or otherwise, the Consultant shall become aware of any Defective Work on the Project, the Consultant shall report all Defective Work to the Commission, together with recommendations for the correction thereof. Upon completion of any inspection services assigned to the Consultant, it shall provide certification, in writing, to the Commission that the inspections were completed in strict accordance with the specifications set forth in the Contract Documents for that particular project. Such certification shall be on behalf of both the Consultant as an entity and the individual inspector assigned to perform the inspection services.

ARTICLE 2

TERM; TIME FOR COMPLETION

- 2.1 Term.** The Consultant shall commence its services on January 1, 2024, and continue, unless sooner terminated or cancelled pursuant to the provisions of this Contract, for a five (5) year period, through December 31, 2028. The Consultant shall render all necessary services under any Assignment Letter issued during the term of this Contract even if the completion date stated in the Assignment Letter occurs after the five-year term and the provisions of this Contract shall remain in effect until the Commission accepts completion of those services.

ARTICLE 3

CONTRACT FEES AND PAYMENTS

- 3.1 Contract Fees.** The Commission shall pay the Consultant for the proper performance of the services under all assignments in accordance with the Assignment Letters issued by the Chief Engineer. The total amount payable to Consultant under this Contract shall not exceed \$_____.
- 3.2 Payments to Consultant.** Payments to the Consultant, excluding those for an Additional Assignment, shall be made monthly pursuant to the agreed upon lump sum fees for each contract year. The Commission will not reimburse the Consultant for any expenses incurred (such as travel expenses) for performing such lump sum services.

APPENDIX B

3.3 Compensation for Additional Assignments. Payments to the Consultant for Additional Assignments shall be made monthly pursuant to the agreed upon hourly rates, the verified time expended performing the Additional Assignments, and the not-to-exceed amount for each Additional Assignment. The total not-to-exceed amount for Additional Assignments during the term of the Contract shall be \$3,000,000.00. Monthly invoices shall be submitted with supporting documentation for hours worked on the Additional Assignment. See also, Section 3.6, Invoices and Payment, below. The Commission will not reimburse the Consultant for any expenses incurred (such as travel expenses) without prior agreement to incur such expenses or without documentation supporting such expenses. See also, Section 3.3(B), Reimbursable Expenses, below. The means for determining compensation for the services performed under an Additional Assignment shall be as provided below:

A. Billing Rates. Unless a lump sum arrangement is previously agreed upon as covering all work required for a particular assignment, the Commission shall compensate the Consultant based upon the actual effort expended performing the necessary services and Approved Billing Rates derived from actual wage rates, overhead rate and fixed fee using the following formula:

$$\text{Billing Rate} = [\text{Hourly Rate} + (\text{Hourly Rate})(\text{Approved Overhead Rate})] \times 1.10$$

with the following definitions:

- (1) Hourly Rates.** Hourly Rates shall mean the direct cost of salaries and/or wages of the personnel of the Consultant, as applicable, including professional, technical, management, administrative and clerical employees, and principals engaged on the Project as related to their time devoted to the Project. All hourly rates are subject to the approval of the Commission's Chief Engineer. The Commission also reserves the right to “cap” the hourly billing rates for any individual assigned to a project in accordance with the document entitled Ohio Turnpike and Infrastructure Commission Professional Services Method of Compensation – Hourly Billing Current FY Summary. This document will be updated annually.
- (2) Approved Overhead Rate.** The Consultant’s overhead rate shall be reviewed by the Commission in accordance with the ODOT Consultant Audit Guide. The overhead rate for this Contract shall be approved by the Chief Engineer but shall not exceed 160.00%. The rate may only be amended by mutual agreement of the parties in writing.
- (3) Fee.** The Consultant shall be entitled to receive a profit as a part of the Approved Billing Rate described in Subsection (4) below attributable to the approved personnel on the Project. The profit allowance shall be ten percent (10%), and thus the profit multiplier for any given assignment will be 1.10.
- (4) Billing Rate Approval.** The Consultant, prior to beginning work on the Project, must submit and obtain written approval from the Commission of the

APPENDIX B

Billing Rate for each individual it expects to work on the Project, including their job classification. Prior to assignment of any new personnel to the Project, the proposed Billing Rates and résumés must be submitted for prior written approval by the Commission. Overtime rates will only be paid as approved by the Commission. The Commission reserves the right to cap billing rates for any personnel assigned to the Project. The Consultant shall invoice its personnel expenses based on its Approved Billing Rates. Compensation for any services not specifically provided for shall be determined by prior agreement between the Executive Director or the Chief Engineer of the Commission and the Consultant; otherwise the Commission agrees to compensate the Consultant in accordance with the Approved Billing Rates for that assignment. The Approved Billing Rates include all overhead costs except as hereinafter modified. Overtime must have prior approval of the Executive Director or the Chief Engineer of the Commission. Overtime rates will only be in effect after 40 (forty) hours of regular time is worked unless this provision is in conflict with other labor agreements to which the Consultant is a party. The time period for the assessment of regular time shall be from Monday through Friday of a standard work week, and for purposes of overtime, said personnel must have worked on the assigned Turnpike project or at another Ohio Turnpike location on another Commission project. Time in excess of forty (40) hours for this period as well as Saturday and Sunday will be considered as overtime.

B. Reimbursable Expenses. No extra charges will be assessed for preparation of invoices, computer time, travel time or for incidental material, services or equipment, except as hereinafter provided. The Commission agrees to pay the actual costs of telephone, printing, postage and other similar incidental expenses incurred by the Consultant in connection with any services performed pursuant to this Contract when such expenses are fully documented. In the event that specialized materials or equipment is required, they shall be provided by the Consultant at the expense of the Commission provided that the Chief Engineer has given prior approval to such expenditure. The Commission will not approve additional reimbursable expenses for work performed under a lump sum arrangement.

(1) Vehicles. The Commission also agrees to reimburse the Consultant for the use of Consultant's vehicles (or vehicles of Consultant's employees) at the rate the Consultant reimburses its employees, when such vehicles are used pursuant to this Contract, up to the current IRS mileage allowance rate. Mileage to and from the work site shall only be reimbursed for the number of miles traveled which exceed the number of miles normally traveled by the Consultant's employee from home to the Consultant's office. The Consultant must certify to the Commission's Chief Engineer the number of miles between the Consultant's office and the home of each employee who will work on the project. The Consultant shall also certify the number of miles that each employee will travel from home to the nearest portion of the Turnpike job site. Such certification will be used to calculate approved mileage charges and authorization for overnight lodging. The foregoing notwithstanding, the approved mileage

APPENDIX B

charges shall not exceed the per day per vehicle amount set forth in the Ohio Turnpike and Infrastructure Commission Professional Services Method of Compensation – Hourly Billing Current FY Summary, unless previously authorized in writing by the Chief Engineer. Furthermore, mileage logs shall be completed daily by the Consultant's employees and submitted with monthly invoices as supporting documentation for mileage reimbursement. If mileage logs are not completed daily, no reimbursement will be made.

(2) Toll Free Access. The Consultant and its employees shall have toll-free passage on the Ohio Turnpike in performing work pursuant to this Contract. However, such toll-free passage shall be strictly prohibited for any personal use by the Consultant's employees. Non-Revenue transponders will be issued to the Consultant upon the submittal of a written request for the requested number of transponders. These transponders are for assigned project use only and it shall be the responsibility of the Consultant to manage and monitor the proper usage of these transponders. The Commission will audit these transponders on a regular basis and should unauthorized activity be detected, the authorization for non-revenue privilege may be revoked. These transponders shall be returned at the completion of the assignment. Should the Consultant return less than the number of transponders issued, there shall be a charge of \$100.00 per transponder for each one not returned.

(3) Meals and Lodging. During performance of said professional services, overnight lodging will be provided for Consultant's employees only when it is deemed advantageous to the assignment, and prior approval in writing is granted by the Commission's Executive Director or Chief Engineer. In the event said overnight lodging has been approved by the Executive Director or the Chief Engineer, the cost of meals and lodging shall be reimbursed at a rate the Consultant reimburses its employees, but not in amounts that exceed the Federal CONUS (Continental United States) rates established by the Federal Government and published at <https://www.gsa.gov/travel/plan-book/per-diem-rates>. CONUS rates will dictate the maximum reimbursement a traveler will receive for lodging and meals (excluding incidentals) by city. Travel reimbursement is based on the location of the work activities and not the accommodations. The location of the work activities shall be the city/county where a majority of the work is being performed for the Project. Reimbursement for lodging and meals (excluding taxes) will be provided on an actual costs basis up to the maximum CONUS rates. Documentation of actual expenditures for lodging and meals is required. For meals, the per diem rates may be used for reimbursement with verification of travel status – refer to the CONUS rules concerning partial days. The Commission agrees to reimburse the Consultant for meals up to the maximum CONUS per diem rates, or at the actual rate the Consultant reimburses its employees, whichever is less.

3.4 Reporting. The Consultant shall provide, and shall require all sub-consultants to provide, any requested data to determine compliance with the representations made in the approved

APPENDIX B

SBE Participation Certification, Utilization Plan, Demonstration of Good Faith Efforts and Statements of Intent to Contract and Perform for each invoice through the Commission's online diversity compliance portal: <https://ohioturnpike.diversitycompliance.com/Default.asp>. The Consultant and all sub-consultants shall timely submit all required data prior to any reasonable due dates, and to check the online diversity compliance portal on a regular basis to manage contact information and contract records. The Consultant shall require all sub-consultants to have completed all requested items and maintain contact information on record that is accurate and up to date. The Consultant shall include these disclosure and reporting requirements in all subcontracts under the Contract and further require that all subcontractors place the same obligation in each of their lower tier contracts. The Commission may require additional information related to compliance at any time before, during, or after contract award.

- 3.5 Taxes.** The Commission is a tax-exempt entity and will provide the Consultant a copy of the Commission's tax exemption certificate.
- 3.6 Invoices and Payment.** The Consultant shall submit invoices no more frequently than once a month in a form agreeable to the Commission. The Consultant shall render its invoices to the Commission on or about the 10th day of the month after any such services are performed. Undisputed invoices shall be due and payable by the Commission within thirty (30) days from the date of receipt thereof. Invoices for any other amounts will be submitted to the Commission as the amounts come due. For any services performed on a time and materials basis, the invoice will also state the total number of hours worked by each individual performing services during the preceding month. Invoices shall be accompanied by such supporting documentation as required by the Commission. The Commission may withhold payment for services that have not been properly performed or completed, and shall not be responsible for cost overruns incurred by the Consultant due to errors and omissions by the Consultant made during the performance of its services on any Turnpike project.
- 3.7 Audit.** The Consultant shall keep full and detailed records and accounts related to its rates, fee and reimbursable expenses and exercise such controls as may be necessary for proper financial management and to substantiate all costs incurred by implementing the accounting and control systems generally followed by consultants in the area or projects similar in nature. The accounting and control systems shall be satisfactory to the Commission. The Commission and the Commission's auditors shall, during regular business hours and upon reasonable notice, be afforded access to, and shall be permitted to audit and copy, the Consultant's records and accounts, including complete documentation supporting accounting entries, books, correspondence, instructions, drawings, receipts, subcontracts, Subcontractor's proposals, purchase orders, vouchers, memoranda and other data relating to this Contract. The Consultant shall preserve these records for a period of three years after final payment, or for such longer period as may be required by law.

APPENDIX B

ARTICLE 4 THIRD PARTIES

- 4.1 Assignment.** Consultant may not assign, transfer, convey or otherwise transfer or dispose of its rights, title, interest in, or its duty to perform or supervise the performance of any of its obligations hereunder, to any other person, company, corporation or entity without the prior written approval of the Commission. Any purported assignment in violation of the preceding sentence will be void. Any approved assignment shall not relieve the Consultant from any of its responsibilities under the Contract or imply a willingness on the part of the Commission to give any subsequent or other consent, nor stop the Commission from refusing same; nor shall any such consent confer upon any assignee or transferee any right to assign or transfer any rights conferred upon such transferee.
- 4.2 Subcontracting.** The Consultant shall not sublet or subcontract, nor shall any approved sub-consultant commence performance of, any part of the work or services included in this Contract without the previous written approval of the Commission. Subcontracting, if permitted, shall not relieve the Consultant of any of its obligations under this Contract. The Consultant shall be and remain solely responsible to the Commission for the acts or faults of any sub-consultant and of such sub-consultant's officers, agents and employees, each of whom shall for this purpose, be considered an agent or employee of the Consultant to the extent of its subcontract. The Consultant shall file a conformed copy of the applicable subcontract with the Commission. The Consultant and any sub-consultant shall jointly and severally agree that the Commission is not obligated to pay or to be liable for the payment of any sums due any sub-consultant. References to the Consultant in this Contract include authorized sub-consultants of the Consultant.
- 4.3 Waiver of Defense.** The Consultant acknowledges and agrees it will not raise a third-party liability defense, and waives such defense, as to any claim, suit or action brought against the Consultant or Commission arising from Consultant's performance under the Contract, except where the claim, suit or action is based upon facts that occurred after an assignment or transfer of the entire Contract, which was consented to by the Commission in writing as required by Section 4.1 above.
- 4.4 Beneficiaries.** There are no intended third-party beneficiaries of any provision of this Contract.
- 4.5 Independent Contractor.** The Consultant is an independent contractor for all purposes under this Contract. This is not an agreement of partnership or employment of the Consultant or any of the Consultant's employees by the Commission for the purpose of the Public Employees Retirement System ("PERS"), Workers' Compensation, or for any other purpose. The Consultant shall not pledge or attempt to pledge the credit of Commission or in any other way attempt to act on the Commission's behalf in an effort to bind the Commission to any additional agreements. The Consultant agrees to indemnify the Commission for any and all sums that are due and owing to the Internal Revenue Service (IRS) for withholding FICA and unemployment or other state and federal taxes. The

APPENDIX B

Consultant further agrees to make such payments to the IRS and appropriate state authorities for withholding FICA and unemployment taxes.

- 4.6 Representations and Warranties.** The Consultant represents and warrants that: (1) so far as the Consultant knows, no member, employee, or agent of the Commission has any interest, either direct or indirect, in the Contract; (2) the Consultant has not employed or procured the employment of anyone to solicit or secure the Contract with the Commission other than those disclosed in the Proposal; and (3) the Consultant will fulfill the representations in its Small Business Utilization Certification and Plan submitted with its Letter of Interest, which the Commission relied upon in selecting the Consultant for contract award; and (4) all materials, including their use by the Commission in unaltered form, will not infringe any third party copyrights, patents or trade secrets that exist as of the date of this Contract and that arise or are enforceable under the laws of the United States of America. If the Commission shall hereafter determine that any of the foregoing representations is false, it may, upon written notice to the Consultant, immediately terminate the Contract and thereafter refuse to make payments thereunder, whether or not such payments are for Services already performed, and may also recover its damages, if any, for breach of warranty; or in the event such false representation was as to the existence of any agreement providing for a bonus, fee, commission, percentage, or other form of contingent compensation, the Commission may, in its discretion, elect to continue the Contract in force by deducting from the payments to be made thereunder to the Consultant the amount of such bonus, fee, commission, percentage, or other contingent payment.

ARTICLE 5 INDEMNIFICATION

- 5.1 Generally.** The Consultant shall indemnify and hold harmless the Commission, its Commission members, Executive Director, officers and employees ("Indemnified Parties"), from and against any and all liability, including claims, demands, losses, damages, settlements, judgments, costs and expenses (including reasonable attorney's fees and any costs of defense) of every kind and description arising out of or in connection with, or occurring during the course of, performance of the Contract where such liability is:
- 5.1.1** founded upon or grows out of the negligent acts, errors, omissions, undertakings, representations or warranties of the Consultant, its officers, employees, agents, independent consultants, or sub-consultants and only in the proportionate share of the tortious conduct of the Consultant, its officers, employees, agents, independent consultants, or sub-consultants;
 - 5.1.2** founded upon, or grows out of the death or injury of a third party that is proximately caused by the Consultant, its officers, employees, agents, independent consultants, or sub-consultants in its performance of the services under this Contract.
- 5.2 Application.** Nothing herein contained shall require the Consultant to reimburse the Commission for acts or omissions caused by the sole negligence of the Commission. The

APPENDIX B

Consultant shall waive and shall not assert any claim against the Commission for any injury to persons, whether or not resulting in death, or any loss or damage to property occurring from any cause unless such injury, loss or damage is due solely to the negligence of the Commission, its agents or employees.

- 5.2.1** If a regulatory body or court of competent jurisdiction finds that the Consultant is not an independent contractor or is not in compliance with applicable laws related to work as an independent contractor, based on the Consultant's own actions, the Consultant will assume full responsibility and liability for all taxes, assessments, and penalties imposed against the Consultant or the Commission resulting from that contrary interpretation, including taxes, assessments, and penalties that would have been deducted from the Consultant's earnings if the Consultant had been on the Commission's payroll and employed as a Commission employee.
- 5.2.2** If a third-party claim causes the Commission's quiet enjoyment or use of any product supplied by the Consultant to be seriously endangered or disrupted, or, should a court order be issued against the Commission restricting its use of any product and should the Consultant determine not to further appeal the claim issue, at the Commission's sole option, the Consultant shall provide at its sole expense, the following: Purchase for the Commission the rights to continue using the contested product(s); or Provide substitute products to the Commission which are, in the Commission's sole opinion, of equal or greater quality, or Refund all monies paid to the Consultant for the product(s) subject to the court action. The Consultant shall also pay to the Commission all reasonable related losses related to the product(s) and for all reasonable expenses related to the installation and conversion to the new product(s).
- 5.2.3** The indemnity obligations of the Consultant shall not be limited by the types, terms, conditions, or limits of liability of any insurance purchased and maintained by Consultant.
- 5.3** This agreement to hold harmless and indemnify shall survive expiration or termination of this Contract.

ARTICLE 6 INSURANCE

- 6.1 General.** Except for the Consultant's indemnification obligations with respect to infringement, the Consultant shall, at its expense, at all times during the performance of services hereunder, and for a period of ten (10) years thereafter, maintain liability insurance insuring themselves against the indemnification obligations throughout the term of the Contract and claims arising from wrongful acts, negligent acts, errors or omissions of the Consultant, its employees, agents, sub-consultants, or any other representatives of the Consultant involved in the work. The Consultant shall name the Commission as an additional insured as set forth in more detail below and shall be responsible for any retentions or deductibles due under the policies in the event of a claim. The Consultant

APPENDIX B

shall require its sub-consultants to obtain insurance and shall be responsible for enforcement of its sub-consultants' obligation to obtain insurance, at limits appropriate to the exposures of the sub-consultant's work to satisfy the requirements hereunder. The policies the Consultant and its sub-consultants maintain shall be with companies authorized to do business in Ohio and rated "A" or above by A.M. Best Company or equivalent and carry the following coverages and limits:

- 6.1.1** Comprehensive Commercial General Liability that includes the Commission as an additional insured for amount not less than \$1,000,000, including those resulting in death to any one person or persons and/or property damage arising from any one (1) accident and \$2,000,000 in the aggregate, including coverage for: property damage, premises operations, liability for independent consultants, products liability, valuable papers, contractual liability and personal injury. The policy or policies shall be primary and non-contributory, provide coverage for on-going and completed operations, and shall not contain a provision that eliminates coverage for damages arising out of the negligence of the additional insured.
- 6.1.2** Comprehensive Automobile Liability Insurance for bodily injury and property damage that includes the Commission as an additional insured for an amount not less than \$1,000,000 combined single limit. The policy or policies shall be primary and non-contributory and shall not contain a provision that eliminates coverage for damages arising out of the negligence of the additional insured.

(Complete and Submit with Participation Certification if SBE goal is attained)

Box 1: _____ (“Respondent/Bidder”) certifies that the SBEs listed below have been contacted regarding participation on this project, and if the Respondent/Bidder is selected for award of the Contract, it shall assure that subcontracts or supply agreements are executed with following named SBEs:

Column 1 Name of SBE (See instructions)	Column 2 Project Role (See instructions)	Column 3 Description of Work (See instructions)	Column 4 Amount Subcontracted to SBE (See instructions)	Column 5 Amount to be Applied Towards Goal (See instructions)

Small Business Enterprise Contract Goal in Dollars:

Box 2

Total SBE Credit Commitment

Box 3

**If Box 2 is greater than Box 3, proceed to complete and submit the Good Faith Efforts Documentation Form (pages 4 to 5)

Instructions for Small Business Enterprise Utilization Plan

Box 1: Name of Respondent/Bidder submitting Proposal.

Column 1: Name of the Small Business Enterprise (“SBE”) participating on the project. To receive credit towards contract goal, SBEs must be certified with the Commission at time of bid, or eligible for fast-track certification (i.e., certified as DBE or SBE with ODOT or EDGE certified with Ohio DAS). If a SBE is performing multiple scopes, repeat the name of the SBE for each scope that will be performed and the respective amount.

Column 2: The Project Role that the SBE will be performing as follows:

- Prime Contractor
- Subconsultant
- Subcontractor
- Manufacturer or Regular Dealer
- Broker
- Trucking/Hauler

List each project role to be performed by a single SBE individually on a separate row(s). The role is used to determine what portion of the amount to be subcontracted (Column 4) may be applied toward meeting the goal (column 5).

Column 3: A description of the work to be performed by the SBE must be consistent with the industry used for its certification. The respondent/bidder may rely upon the descriptors listed in the Commission’s Certification List.

For example: <http://www.ohioturnpike.org/business/mbe-fbe>, or those eligible for Fast Track certification as DBE see: <http://www.dot.state.oh.us/Divisions/ODI/SDBE/Pages/DBE-Directory.aspx> as SBE, see: <http://www.dot.state.oh.us/Divisions/ODI/SDBE/Pages/SBE.aspx>

A respondent/bidder subletting a portion of a bid item shall state “Partial” and describe the Work that is included (e.g., “Surveying (Partial) – Site Plan”, “Electrical (Partial) – Trenching”).

Column 4: List the total amount to be subcontracted to each SBE for the services they are performing.

Column 5: This is the total dollar amount of the project each line listed in the certification that the prime intends to apply towards meeting the Contract goal. It may be that only a portion of the amount subcontracted to a SBE in Column 4 is eligible to be credited toward meeting the goal. See Notes below. The Commission will utilize the sum of this column (Box 3) to determine whether or not the respondent has met the goal. In the event of an arithmetic error in summing column 5 or an error in making appropriate reductions in the amounts in Column 4, then the sum will be corrected, and the total (Box3) will be revised accordingly.

Notes: (A) For Work self-performed by a SBE bidding as a prime contractor, the respondent/bidder may claim only 20% of the amount self-performed (Column 4) towards meeting the goal (Column 5). (B) For Work performed by SBE subcontractors, the respondent/bidder may claim 100% of the Commercially Useful Functions performed by subcontractors (i.e., the subcontractor must perform or exercises responsibility for at least 30% of the total cost of its subcontract using its own workforce, and have responsibility, for negotiating prices to purchase its materials and supplies, determining quality and quantity, ordering the material, and installing and paying for the material itself). (C) For materials supplied by a Manufacturer or a Regular Dealer, the Respondent may claim 100% of the cost of the materials or supplies (Column 4) towards meeting the goal (Column 5). (D) SBE credited for the total value of the trucking services provided using its own trucks and employees and the total value of transportation services SBE provides using non-SBE trucks that do not to exceed the value provided by SBE-owned trucks operated by its employees (i.e., no more than one non-SBE truck for each SBE truck). (E) For work contracted out to a broker, the respondent may only claim the fees paid to a broker towards meeting the goal (Column 4).

Box 2: Box 2 is the Contract goal for SBE participation goal appearing on the Solicitation.

Box 3: Box 3 is the sum of the values in Column 5. This value must equal or exceed the Contract goal amount written in Box 2, or Good Faith Effort Demonstration is required if insufficient SBE Participation has been achieved. See the following pages (page OEI-4 and page OEI-5) for the materials necessary for demonstrating the Respondent’s/Bidder’s Good Faith Efforts.

GUIDANCE FOR DEMONSTRATING GOOD FAITH EFFORTS TO ACHIEVE OR EXCEED THE CONTRACT GOAL

If the SBE Participation Certification and Utilization Plan fails to document commitment to achieving the SBE Goal set forth in the notice to bidders, complete the Good Faith Effort Demonstration Form to document necessary and reasonable actions that, by their scope, intensity, and appropriateness, would reasonably be expected to attain SBE participation that meets or exceeds the goal.

The Commission's determination of Good Faith Efforts is based on consideration of the quality, quantity, and intensity of the different kinds of actions taken. The activities or efforts undertaken to when making a Good Faith Effort must be those that one could reasonably expect to deploy when seriously, actively and aggressively attempting to obtain SBE participation in relative proportion to those that are Available to capably perform Commercially Useful Functions under the Opportunities presented in given contract.

The analysis for determining whether the bidder or respondent fulfilled its obligation to use Good Faith Efforts, the Commission will consider the demonstration of the following, which the form is intended to illicit from the bidder:

1. **“Opportunities”** means the subcomponents of the project that are identifiable as economically viable scopes of work that may interest subcontractors in responding to the respondent's solicitations to participate in the Project. The unique opportunities each project presents is determined based on the nature of the project using in-house expertise and the aggregation of those that the bidders or respondents may identify in their bids or proposals.
2. **“Availability”** means the degree of ready, willing and able SBEs available to capitalize on the opportunities presented under each project. The availability consideration examines the amount of SBEs in the relevant marketplace using (1) the Commission's list of certified SBEs (available at <http://www.ohioturnpike.org/business/mbe-fbe>); (2) the Unified Certification Program's DBE Directory (at <http://www.ohioturnpike.org/business/mbe-fbe>); (3) the Department of Administrative Service's directory of EDGE certified businesses: <http://eodreporting.oit.ohio.gov/searchEDGE.aspx>; the Ohio Department of Transportation's registry of SBEs: https://odotextrpt.dot.state.oh.us/ViewReport.aspx?reportPath=%2fprd%2fpreconstruction%2fpublic%2fextawp_sbevendorlist; and (5) any other Ohio-centric database that the Commission recognizes as using standards that are substantially similar to the requirements for certification with the Commission.
3. **“Efforts”** means the documented attempt to meaningfully and earnestly solicit the interest of available SBEs to fulfill the opportunities presented to perform on the Project, including making a sufficient number of contacts to follow up with any available but non-responsive SBEs and negotiating in good faith with available SBEs to reach reasonably agreeable terms for their participation.
4. **“Commitments”** means the bidder or respondent representations in the Participation Certification and Utilization Plan to have successfully achieved commitment(s) to utilize verified SBEs to perform on the project.

The determination that a given respondent or bidder satisfactorily used and demonstrated its Good Faith Efforts is based on the holistic review of the Opportunities, Availability, Effort and Commitment documented in the bid or proposal documents.

A. Opportunities and Availability

This assessment of opportunities and availability compiles those SBEs that the bidders or respondents may identify in their Utilization Plan and Good Faith Efforts Demonstration forms, but also may go outside the form to identify additional possible opportunities under the project and recognized certification registries for possible untapped available firms.

A bidder or respondent can demonstrate fulfilling the **Opportunity** component is documenting that the bidder or respondent performed actions that include the following:

- a. Selected and packaged portions of the work in order to increase the likelihood that the SBEs will respond to solicitations expressing interest in participating on the project. This includes, where appropriate, breaking out contract work into economically feasible units to facilitate participation through subcontracting.
- b. Soliciting the interest of all SBE entities available to perform on the project through reasonable, meaningful and available means and providing a reasonable and meaningful time to respond.

The means for a bidder or respondent to fulfill the **Availability** component of demonstrating good faith efforts includes the following:

- a. Searching recognized registries identifying certified SBEs that potentially could fulfill the opportunities under the project.
- b. Identifying other possible ready, willing and able SBEs through the effective use of the services of available from plan rooms, community organizations, contractors' groups, local, state, and Federal minority/women business assistance offices, and other organizations as allowed on a case-by-case basis to provide assistance in the recruitment and utilization of SBE entities.

B. Efforts and Commitment

Bidders must document level of exertion used to engage the Availability pool on the Opportunities presented under the project. The **Efforts** component considers the active attempts to successfully reach terms with interested SBE firms, which may include the following:

- a. Negotiating in good faith with interested SBE entities so as to facilitate their participation on the Project.
- b. Not rejecting SBE entities without sound reasons based on a thorough investigation of their capabilities.
- c. Assisting SBE entities in obtaining bonding, lines of credit, or insurance as required.

The **Commitment** component provides a cross-check on the identified and documented Opportunities, Availability and Efforts. Unless the analyses under the Opportunities, Availability and Efforts prongs demonstrate otherwise, the utilization of Good Faith Efforts is expected to result in the bidder or respondent successfully representing its achievement of SBE participation goal for the contract. The bidder or respondent must provide justification for any lack of Commitment by showing that the failure occurred despite its Good Faith Efforts through the demonstration under the Opportunity, Availability and Efforts prongs of the test.
