ANSWERS TO QUESTIONS RECEIVED THROUGH 5:00 P.M. ON OCTOBER 14, 2026:

Q#1 Our company is a Canadian software development company with our delivery team in Pakistan. Could you confirm whether this delivery arrangement is eligible and whether meetings, implementation and staff training can be completed remotely?

A#1 Executive Orders Nos. 2019-12D and 2022-02D prohibit the expenditure of public funds for services performed or data storage located outside of the United States (See Appendix F – Affirmation and Disclosure Form). Respondents must disclose all locations where services would be performed and where Commission data would be stored on the Affirmation and Disclosure Form. If any of those locations are outside of the United States, the Commission must apply for a waiver with the State of Ohio Department of Administrative Services (“Ohio DAS”). It is highly unlikely the Ohio DAS would grant a waiver under these circumstances. In the past, the Ohio DAS has denied waivers for vendors performing services outside of the United States based on the fact that other US based vendors are available to perform the services in the United States. The Commission expects that would be the case here too.

Q#2 Could you please confirm whether India-based technology companies delivering the project remotely are eligible to participate?

A#2 See A#1.
