

12/17/81

OHIO TURNPIKE COMMISSION

Resolution Revising the Schedule of Tolls

Adopted July 15, 1955 and thereafter

Amended from time to time

WHEREAS, by Resolution No. 12-1980 adopted December 17, 1980, the Commission instructed the executive director, on or before February 15, 1981, to request that the consulting engineer make recommendations as to a revision in the schedule of tolls;

WHEREAS, pursuant to such resolution and to Section 501 of the trust agreement dated June 1, 1952 entered into between the Ohio Turnpike Commission and the Ohio National Bank of Columbus, (now BancOhio National Bank), as trustee, and The National City Bank of New York, (now Citibank, N.A.), as co-trustee, the Commission's consulting engineer, J. E. Greiner Company - Ohio, was requested in writing by the executive director, under date of February 11, 1981, to make recommendations as to a revision of the schedule of tolls and to submit such recommendations to the Commission; and

WHEREAS, the consulting engineer by letter dated December 15, 1981 signed on behalf of said consulting engineer by James E. Sawyer, P.E., submitted to the Commission certain conclusions and recommendations as set forth in a report entitled "Toll Structure Analysis" dated December, 1981, which report included recommendations made as a result of a study conducted by the J. E. Greiner Company - Ohio in association with Wilbur Smith and Associates, Inc., which report and recommendations have been submitted by said J. E. Greiner Company - Ohio, the Commission's consulting engineer, as its report and recommendations in response to the aforesaid resolution and request;

WHEREAS, the Commission accepts the aforesaid report and recommendations of the consulting engineer and desires that reserve maintenance projects, as therein suggested, be carried forward in an orderly way to the end, that the condition of the turnpike be made good and the repair thereof be fully and properly accomplished in accordance with the suggestions and recommendations made in said report; and further that the Commission's funds within the constraints of law and of the aforementioned trust agreement be allocated and employed in the manner best calculated to accomplish the foregoing;

NOW, THEREFORE, BE IT

RESOLVED that the Commission having fully and duly considered and accepted the aforesaid report of J. E. Greiner Company - Ohio and Wilbur Smith and Associates, Inc. and having expressed its desire that the conditions, problems and proposed solutions set forth therein be addressed, instructs its executive director to consult and work with the consulting engineer and the trustee in arranging for and bringing about the accomplishment of the repairs and improvements proposed in said report including making of such arrangements as may be necessary and appropriate for the allocation and use of the revenues and funds required for such purposes; and

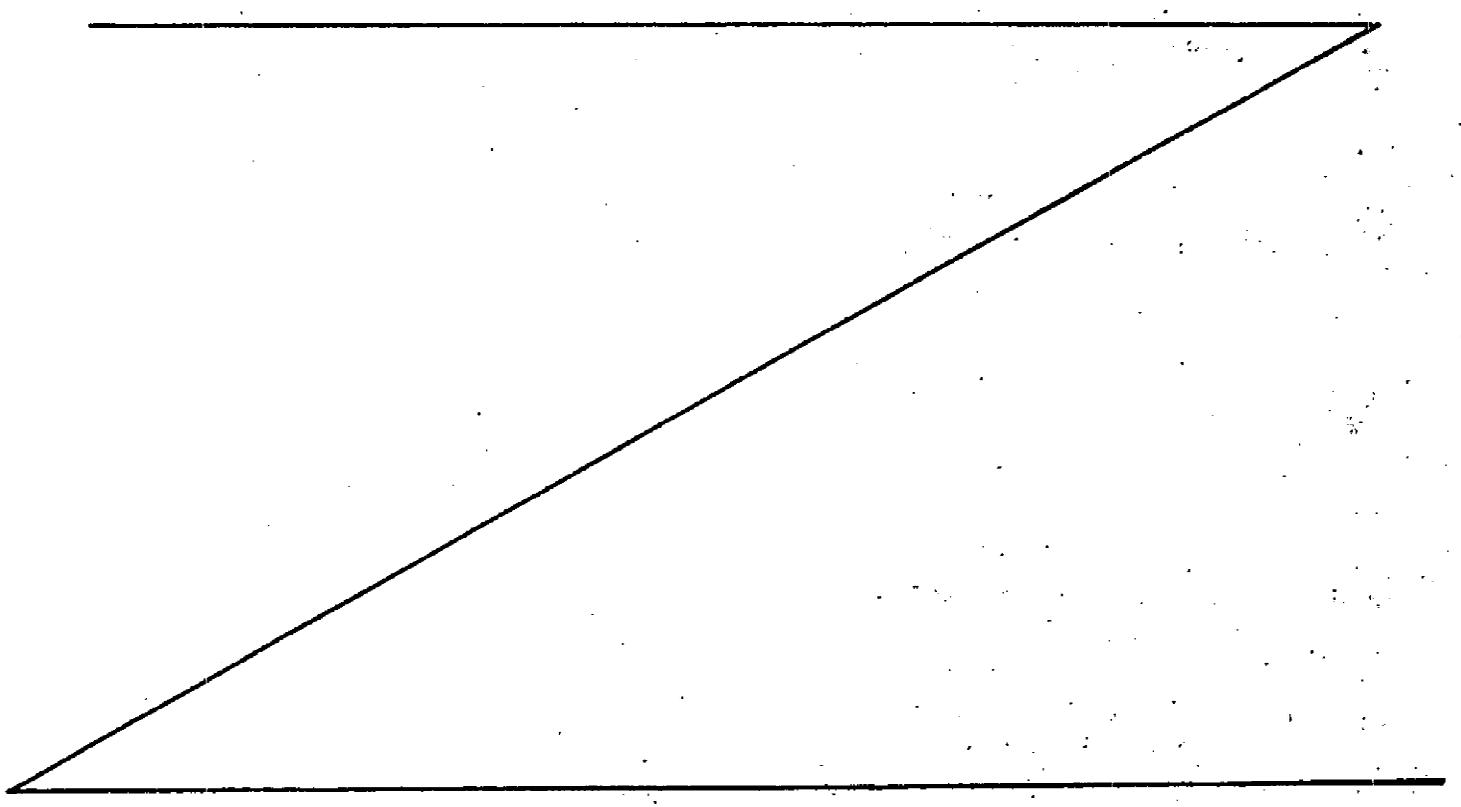

FURTHER RESOLVED that these instructions to the executive director, without limiting their generality, shall pertain particularly to the planning, estimating and scheduling of the work to be performed with funds allocated to the reserve maintenance fund, it being anticipated that the allocations to such fund, within the period covered henceforth, will be generally in accordance with the schedule set forth in said report and the amount estimated for 1982, being specifically hereby accepted and approved as an amendment to the prior recommendation of the consulting engineer as to the amount to be placed in the reserve maintenance fund for that year;

FURTHER RESOLVED that the Commission, having duly and fully considered said recommendations as set forth in the aforesaid report prepared by J. E. Greiner Company - Ohio and Wilbur Smith and Associates, Inc. dated December, 1981, does hereby adopt the recommendations as to revision in the schedule of toll rates as set forth therein, and does hereby revise in accordance therewith the schedule of rates of tolls heretofore fixed by it under Resolution No. 38-1955 adopted July 15, 1955, and subsequently revised in several particulars by resolutions numbered 40-1956, 48-1956, 5-1957, 12-1957 and 10-1958;

FURTHER RESOLVED that the discount heretofore provided for operators of commercial vehicles shall continue in effect as heretofore, but that the granting of special use permits under authority of the executive director, including tandem trailer permits, shall be subject to the following: the single trip fee for permits for over-dimensional vehicles shall be \$4.00 per trip in addition to the mileage charge as now in effect, and the single trip fee for tandem trailer combinations (which is charged in addition to the scheduled toll charge) shall be \$10.00;

FURTHER RESOLVED that said revised schedule of tolls be made effective as soon as appropriate arrangements necessary to place it in effect can be accomplished which shall in no event be later than 12:01 a.m. February 1, 1982; and

FURTHER RESOLVED that the aforesaid revised schedule of tolls is as follows:
