

# OHIO TURNPIKE AND INFRASTRUCTURE COMMISSION

## **Resolution Authorizing an Amendment to the Contract with TransCore, LP for Project No. 64-08-01 in an Amount Not-to-Exceed \$458,397.01**

WHEREAS, the Ohio Turnpike and Infrastructure Commission (“Commission”) awarded a contract to TransCore, LP, of Hummelstown, Pennsylvania (“TransCore”), under Resolution No. 8-2008 following a Request for Proposal (“RFP”) process to select an integrator to furnish, install and maintain a new Toll Collection System and Customer Service Center (“Project No. 64-08-01”), which included a DVTEL Camera system used to monitor traffic flow, backups and incidents in lanes at all thirty-one toll plazas and remote monitoring for collections using Automated Toll Payment Machines (“ATPMs”); and

WHEREAS, as described in the RFP for Project No. 64-08-01, the Commission converted the integration contract with TransCore into a Maintenance Contract for a five-year term under the authority of Resolution No. 3-2011, with the option for one additional five-year renewal term, which option the Commission exercised in 2016; and

WHEREAS, the Commission approved automating additional toll lanes using sixteen new ATPMs under Resolution No. 56-2017 that will supplement the initial twenty ATPMs TransCore integrated under the original Contract and eight additional ATPMs purchased under the authority of Resolution No. 35-2012; and

WHEREAS, the Commission requires additional DVTEL Cameras to monitor the lanes where the sixteen new ATPMs are being deployed but the Commission cannot incorporate the additional cameras without upgrading the software operating the existing DVTEL System; and

WHEREAS, TransCore has submitted a proposal in the amount of \$394,599.89 to supply the material and equipment necessary to upgrade the DVTEL Camera System plus \$23,797.12 to furnish and install the sixteen new DVTEL Cameras necessary to support the operation of the additional ATPMs; and

WHEREAS, TransCore also proposed to integrate additional cameras into the DVTEL System as the need arises and the Commission desires to obtain the option to proceed with incorporating the additional cameras as necessary for an amount not to exceed \$40,000.00; and

WHEREAS, the Director of Contracts Administration advised the Commission that the additional recommended expenditures are appropriate and reasonable and is considered as a competitively sourced through the prior process that resulted in the selection of TransCore because the new DVTEL Camera System equipment must be provided by the same developer whose equipment was originally integrated into the TCS as originally conceived; and

WHEREAS, the Executive Director has reviewed the recommendations submitted by the Director of Contracts Administration and concurs with his recommendation; and

WHEREAS, the Commission has duly considered such recommendations.

NOW, THEREFORE, BE IT

RESOLVED by the Ohio Turnpike and Infrastructure Commission that amending the Contract with TransCore, LP for Project No. 64-08-01 to upgrade the existing DVTEL Camera System and integrate sixteen DVTEL Cameras into the System for \$418,397.01 is approved, and the Executive Director is authorized to execute such an amendment to the Contract that also contains the option to integrate additional cameras into the system as necessary for an amount not to exceed \$40,000.00; and

FURTHER RESOLVED that the Executive Director has the authority to approve such extra work or change orders under said contracts as a result of an increase in necessary quantities, newly mandated requirements that did not exist at the time of original contract awards, or circumstances that would create a life, safety, or health threatening situation or would unduly delay the completion of the Project or increase its costs.

**(Resolution No. 33-2018 adopted May 21, 2018)**
